EDUCATION

Institute of Technology And Management, Gida

Gorakhpur, India

B.Tech. in Computer Science and Engineering | CGPA : 7.68/10

August 2019 – August 2023

Coursework: Data Structures, Algorithms, Operating Systems, Database Management Systems, Computer Networks

Reliance Academy

Gorakhpur, India

Senior Secondary (class XII) | percentage : 79.8

March 2017 – March 2019

TECHNICAL PROJECTS

Digital HealthCare App | FLUTTER, FIREBASE |  [GITHUB](#) |

- Developed "Digital Healthcare" **Flutter** app, empowering users to effortlessly book doctor appointments and access information on dentists, hospitals, and ambulances in their vicinity.
- Leveraged the power of **Firestore** database to securely store and manage user details, ensuring a seamless and personalized experience.
- Employed best practices in UI/UX design and implemented robust functionality, resulting in a user-friendly and reliable application.

Khabron-ki-Duniya(News-site) | ReactJs, HTML, CSS, JAVASCRIPT |  [GITHUB](#) |

- "Khabron Ki Duniya" is a personal project I undertook with the aim of creating a comprehensive news website using **ReactJs**.
- To fetch news data, we have integrated an **API** into our application. This **API** serves as a reliable source of up-to-date news articles, ensuring that you receive the most recent information.
- Developed a visually appealing and responsive website layout using modern design principles and technologies and allow user to view news from different categories.

Personal-Website | HTML, CSS, JAVASCRIPT |  [GITHUB](#) |

- Developed a personal website to showcase my skills and project including Html, Css and Javascript.
- Implemented a **dark mode feature** in website allowing user to switch between light and dark mode based on their preferences and providing more appealing experience.

SKILLS AND INTERESTS

- Proficient in **C++** programming language
- Experience in working with **SQL databases** and able to write complex queries to retrieve data efficiently.
- Knowledgeable in **HTML, CSS and React-Js** and able to develop responsive and visually appealing web pages.
- Proficient in **debugging** and troubleshooting code to identify and resolve errors quickly.

ACHIEVEMENTS

- **2*** coder at CodeChef
- Solved over **200+** DSA problem on different platforms.
- **3*** coder at Hacker Rank
- Won **3rd** prize in state-level football competition.

POSITION OF RESPONSIBILITY

Coordinator-Code debugging | ITM, GIDA

- Organized a Code debugging competition at college.
- Conducted a college coding contest with **50+** participants.

Football team captain | ITM, GIDA

- Lead a football team of our college at zonal level.
